Location: Fish Creek Falls

- Beginner - Intermediate Ice Climbing
- No Experience Necessary
- Ages 13 and Up
- Morning or Afternoon
- Transportation provided

Fish Creek is a spectacular place to try your skills at ice climbing. Great for beginners or those interested trying ice climbing. All climbing equipment and instruction is provided by knowledgeable guides. Only five minutes from downtown and a short hike to the base of the falls, RMV guides provide instruction on ice axe and crampon (spiked boots) technique and set up a climbing top-rope on a pre-set anchor (just like in climbing gyms, only on ice). Climbers can climb as high as they want and be lowered whenever they please. RMV guides promote a positive learning experience on a 200 foot waterfall in the beautiful Fish Creek canyon. If your lucky, you might even get to see the water flowing behind the ice…

Equipment: Helmet, Harness, Boots, Gaitors, Crampons, Ice Axes and Packs included. Dress warm, as if you were going skiing or snowboarding, with warm, dry gloves and a hat that will fit under a climbing helmet. Wear layers that you can add or shed. Extra puffy coats available upon request. Don't forget your camera.

Times may vary. For ice climbing trips, we can provide transportation to and from client's lodging, or clients can follow in their own vehicles. Clients may also meet guides at the trailhead.

Cancellation Policy: RMV must receive at least 48 hours notice for full refund. Less than 48 hours notice or no notice at all – we will charge the credit card for the total trip cost.
